We offer you a range of spaces and professionals that will make your dream a reality.

MENORCA
islas baleares

When you think of Menorca, the first thing that comes to mind are its beaches, coves of crystal-clear water and its natural landscapes... Those who know it a little better will be familiar with its culture and traditions enriched by the passage of the Arabs, English and French, all of whom have left their mark on the island. You may have visited one of the island's more than 700 Talayotic monuments, tasted the lobster stew or Maó-Menorca cheese, or worn the typical Menorcan sandals in summer.

Menorca is undoubtedly a perfect island for disconnecting, putting the brakes on the stressful daily life of the city and above all for getting back in touch with life and reconnecting with yourself.

Why not take advantage of this calm and natural way of life and give your event that special touch?

Menorca has a wide range of spaces, accommodation, service providers and event organisers that can turn any type of event into a reality: business, sports, cultural, family celebration or wedding.

In the following pages you will find information about tourist establishments with facilities for the organisation of events and celebrations, public and private venues such as theatres, multifunctional conference halls, well-known cultural locations, catering companies and event organisers...

Everything you need to make your dream event come true!

GENERAL DESCRIPTION OF THE HOTEL

Hotel Menorca Patricia is located on the Paseo de Sant Nicolau, just 300 m from the centre and 100 m from Ciutadella's port.

It has 44 rooms (40 standard rooms and 4 suites), each equipped with a full bathroom, hair dryer, air conditioning, heating, mini bar, safe, satellite TV, telephone and free Wi-Fi.

The hotel offers an extensive full buffet breakfast with typical Balearic items, a salt-water pool with sun terrace, rooms for groups and a TV room, free Internet Corner, open bar, 24h reception, concierge, free Wi-Fi and gymnasium.

The philosophy of Hotel Menorca Patricia has always been to achieve a trustworthy team, so we keep the same team year after year. The entire team will be at your service to try to meet your needs.

Hotel Menorca Patricia has the honour of filling its walls with original paintings and drawings by the artist Ramón Jesús.

He was born in Catalonia although he is Menorcan by adoption. After 50 years of "dirtying canvas and paper", as he says, his works can mostly be seen in southern Europe, North Africa and South America.

The paintings of Ramón Jesús can be described as clean, clear and calm. His work contrasts "freedom" with the "search for the perfect balance".

Since opening in 1988, Hotel Menorca Patricia has been visited by numerous personalities from the world of culture, politics and art. Probably the most famous are the King and Queen of Spain. King Juan Carlos and Queen Sofía stayed at the Hotel Menorca Patricia in 1998.

Hotel Menorca Patricia is a family establishment with 44 rooms. Located on "Passeig Sant Nicolau", one of the main avenues of Ciutadella de Menorca, just 300 metres from the old town and 100 metres from Puerto de Ciutadella.

GENERAL DESCRIPTION OF THE HOTEL

There is a very complete collection of maps, as well as furniture, paintings from different centuries and other decorative objects.

It was the family home of the merchant Lorenzo Oliver y Morillo in the late 18th century.

The volume and treatment of the architectural space was rounded off by its interior ornamentation, which was commissioned from the Italian artists Giuseppe Patan and Stefano Cotard, who decorated the ceilings with classical themes inspired by Roman mythology.

GENERAL DESCRIPTION OF THE VENUE

The Claustre del Carmen is an iconic building in the city of Maó. It's part of the Iglesia del Carmen, located in the square that carries the same name. Like the old convent located behind the church with its lovely intact cloister, it was founded by the Carmelite Order.

Construction on it began in the mid-18th century and did not finish until the 19th century. It's a church in the neoclassical style which houses an image of Our Lady of Mount Carmel, the patroness of seafarers, venerated by the townspeople. The proceedings began in 1683, and it was built between 1750 to 1808 at the same time as the church. Due to the Spanish Confiscation in 1835, it was converted and housed the prison, the courts of justice and the market.

In the 1980s, it became a cultural centre, with the market staying in place. It continues to house the market at present on the ground floor, as well as different cultural facilities. The upper floor is where the municipal lecture rooms, the music conservatory, the UNED and the exhibition rooms can be found.

It is home to one of the most traditional markets in Menorca —the highly popular Mercat del Carme—, which has clothing, food items and pieces of jewellery on sale in this open-air square which is accessible to the general public. It's also currently used for different cultural activities such as concerts, exhibitions and shows, most notably the well-known Menorca International Jazz Festival.

GENERAL DESCRIPTION OF THE VENUE

Coinciding with its 185th anniversary, the Teatre Principal received the Gold Medal of Merit in the Fine Arts, the most important award given by the Spanish Ministry of Culture.

The Teatre Principal de Maó was built in 1829 by G. Palagi, the manager of an opera company, on a tower which was part of the city's mediaeval wall. In six months, the new coliseum was completed to the great anticipation of the townspeople. In fact, the inhabitants' passion for the performing arts dates back to the 18th century, when there was already documentary evidence of the existence of a theatre. Built almost 200 years ago, it offers a varied and jam-packed programme of excellent quality, thanks to the important renovations it underwent in 2001, which provided it with the necessary technical equipment.

The theatre serves as a venue for large congresses, presentations, galas and other types of events. It is one of the most iconic venues in Menorca.

The theatre can host events with an aperitif service for up to 100 guests.

The Sala Principal is four storeys high and can accommodate 837 people.

The Sala Palagi is a venue for meetings of up to 30 people.

The Sala de la Reina dates back to 1860 and is perfect for small events, presentations and receptions. It has a capacity for 80 people.

Congratulations on your engagement!

If you've decided to take the plunge and get married, a few months of hard work and planning stand between you and your big day, and one of the most important aspects is processing your marriage application.
The first thing you need to decide on is what type of wedding ceremony you want – civil or religious –, and secondly, the place where you want to celebrate the marriage.

Processing the application for civil marriage

The processing of the registry application and the marriage authorisation certificate prior to the celebration of the marriage must be carried out sufficiently in advance, as it is necessary to provide various documents in order to accredit the capacity of the contracting parties and the absence of legal impediments to contracting the marriage.

The civil marriage application will be processed in the corresponding judicial district (Mahón or Ciutadella) or in the Civil Registry of where you are registered as resident (other municipalities of Menorca). If the bride and groom are not registered in any municipality of Menorca, they must start the marriage application at the Civil Registry of their municipality of residence, in order to be able to get married in Menorca.

In order to get married in the municipality, a certificate of census registration issued by the corresponding Town Hall must be presented, certifying that the couple have been resident in the municipality for the last two years. If you do not have this period of residence, the procedure will begin in the municipality where you are registered and will be sent to the Civil Registry of the municipality where you wish to get married.

In order to help you with the process, here are the steps to follow and the documentation that will generally be requested.

If the bride and groom are Spanish, the following documentation will be requested:

- Long-form birth certificate: issued by the Civil Registry of your place of birth.
- Proof of Life and Civil Status certificates (issued by the Civil Registry of the place of residence).
- Certificate of census registration (issued by the corresponding Town Hall).
- Photocopy of National ID card.
- In the case of divorced persons, they must provide a certificate of the marriage with the corresponding confirmation of the divorce.
- In the case of widowed persons, they must provide a Certificate of Marriage and of the death of the spouse.

If the bride and groom are foreigners, the following documentation will be requested:

- Long-form birth certificate duly legalised / apostilled and translated if necessary.
- Certificate of civil status duly legalised/apostilled and translated, if applicable.
- Certificate of census registration issued by the corresponding Town Hall.
- Photocopy of the N.I.E. or passport.
- In the case of divorced persons, they must provide a certificate of the marriage with the corresponding confirmation of the divorce, which must be legalised/apostilled and translated, if applicable.
- In the case of widowed persons, they must provide a Certificate of Marriage and of the death of the spouse, legalised/apostilled and translated, if applicable.
- Foreigners should previously inquire at the Consulate of their country, as to whether they need to provide any other documentation required by their personal law.

Almost all documents can be obtained electronically.

You will also need the presence of two witnesses, one for each of the future spouses, of legal age and who are not family members, who must be present with their National ID card when called.

The procedure ends with a reasoned decision authorising or denying the celebration of the marriage.

Now you can reserve the date, specify the place of the celebration (Town Hall, Court of Mahón or Ciutadella, an estate or a private space), the person who will officiate the marriage (Mayor, Town Councillor or Judge), and arrange the details of the ceremony such as music, flowers, decoration, readings, etc. with the corresponding responsible person, etc.

GETTING MARRIED ON THE BEACH

Many couples dream of getting married on one of Menorca's pristine beaches, and since March 2015, this is now possible.

But to turn it into reality, you must obtain the following:

- Permit from the coastal authorities (Demarcación de Costas en Illes Balears).
- Permission from the Town Hall of the municipality where the chosen beach is located.
- Permit from the Consell Insular de Menorca (Menorca Island Council).

First of all, it is advisable to go to the Town Hall of the municipality where the chosen beach is located, where you will be informed regarding the procedures to be carried out, as well as the documentation to be presented, which will depend on the type of wedding, number of guests, dates, location, etc. It is best to start the formalities well in advance. Generally, the number of guests, the duration of the ceremony, the beach space that will be needed, as well as the decorative elements that will be placed on the coast are requested.

These are the contacts of the Town Halls of Menorca, in order to request information:

GETTING MARRIED IN A CHURCH

The Spanish State recognises canonical marriage as legal, so you do not need to celebrate the marriage beforehand at the Civil Registry or at the Court.

If you wish to get married according to the precepts of the Catholic Church, you will need to follow a few simple steps and gather the necessary documentation to process your marriage.

The first thing you have to determine is which parish you belong to (where you are registered) and then, the church that you want to get married in.

To start with the formalities, the first thing you have to do is to request the opening of the marriage application in the church to which you belong according to the address where you are registered. Afterwards, set the date depending on the availability of the church where you want to get married. It is very important to arrange a meeting with the parish priest of your church.

However, the documents that will generally be requested from you are:

- Photocopy of the national identity card (DNI), passport or residence card of each.
- Baptism certificates of both.
- Long-form birth certificates of the bride and groom.
- Proof of Life and Civil Status certificates.
- Certificate of attendance at the pre-marriage course.
- Photocopy of the page in the family record book belonging to the interested parties' parents where the prospective spouses appear.
- Witnesses: one witness on behalf of each of the bride and groom, who knows them, is of legal age, and is not a relative, who will be responsible for affirming that you are marrying freely for love.

And finally, after celebrating your wedding, the church itself is responsible for registering the wedding at the Civil Registry.
