What did you think of the presentation overall?.....	1	2	3	4	5	N.A.
Was there adequate time for questions and discussion?.....				Yes	No	
Do you think you can apply what you learned in the work place?.....				Yes	No	

What aspects of the teaching were particularly good?

The stories Buffy told at the beginning and end of her presentation really drove home the message for me. I felt it easier to grasp the importance of this topic thanks to those stories.

What aspects of the teaching could be improved?

Though I got most of what was discussed, the section on protocols for recruitment was very confusing. I feel the slides could have been simpler to help explain the steps of the process easier.

Because I did not understand this part of the presentation, I may find it harder to implement the neccessary changes into my daily practice.
