WE DESERVE

Petition to open access to summer and semester storage in Regina to students who live over 300 miles from campus.

- There is an underutilized storage space in the Regina Hall basement that is only open to usage for RA's and international students
- Storage options for further out of state students in the area include storage units and the Campus Storage service which can be very costly and inconvenient.

Petition to open the SMC dining hall over breaks: Thanksgiving, Fall, Easter, Spring, Summer.

- SMC and ND dining are partners and while ND dining remains open, access to food at SMC is extremely limited
- Nearest open dining is a 1.2m walk (NDH), all other food options must be paid out of pocket
- Financial burden and often inaccessible for many students, especially international and long-distant students

Petition to raise the student wage to $15 an hour for on-campus jobs.

- SMC Students wages are currently set at $9 and $12/hour excluding dining hall workers
- There is a 40% wage gap with ND student workers earning $15-$19/hr
- International and many low-income students are limited to on-campus employment, with the low wages, there is a heavy financial burden placed on those students
