---

Ron Douglas is Tammy Daybell's father.

Before moving to Idaho, she lived one block away. It was difficult for us when she moved. We'd had daily interactions with her and the children. After they moved, we drove to see them for all of the children's weddings and graduations. Our last visit in Idaho with them was in March of 2020. My wife made me promise to return and visit the kids after she passed away. My wife passed away last June. The tragedy of the case has harmed our family's relationship with the kids. I will remain open to rebuilding a relationship with them. It makes me angry, and it destroys me to know Tammy was treated how she was. I find it comforting to know that Tammy is resting peacefully in Utah, buried alone, and near her beloved mother.
