Development/Career

Joining Allianz Consulting means working in a fully international environment alongside other talented people who enjoy sharing their knowledge and experiences. Allianz Consulting has a reputation for focusing on growing its talent and for on-the-job training from the very first day to ensure strong career development and preparation for future opportunities within the Allianz Group. As a talent greenhouse to shape the leaders of tomorrow, we offer broad career opportunities:

- Junior Consultant
- Consultant
- Senior Consultant
- Principal Consultant
- Engagement Manager
- Partner

Who are we looking for:

At Allianz Consulting we offer a wide variety of opportunities which range from entry-level to professional roles:

Graduates

Highly motivated graduates can start their career and develop their capabilities by working closely with experienced consultants as a Junior Consultant on key projects of the Allianz Group.

Professionals

For more advanced roles, we are looking for qualified talents who are familiar with the latest developments in the financial services market and use their advanced experience, as well as their excellent skills to contribute to the success of our client projects and solution pitches.

Working in a truly international environment

Our key to success is our diverse and experienced workforce from different backgrounds: we come from more than 50 countries and speak even more languages, combined with multiple areas of expertise. Our 550+ colleagues enjoy sharing their knowledge and passion and taking on responsibilities and challenges.

Quote from our (Principal Consultant) Jessica:

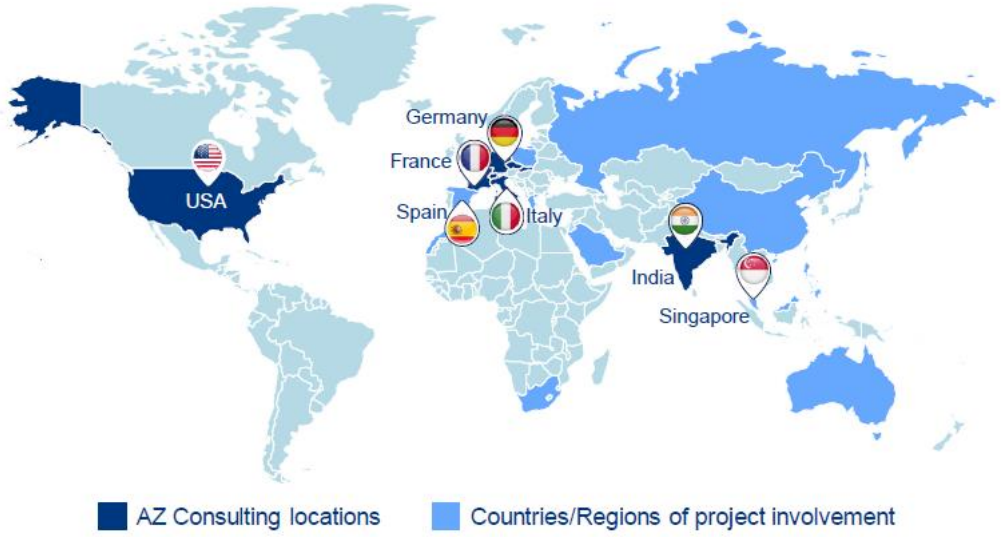

“As an internal consultant at Allianz Consulting and part of Allianz Services, I have the unique opportunity to work globally across Allianz on developing and implementing a wide variety of strategic initiatives that are helping drive our customers forward. It’s such a rewarding role and I really enjoy working with our team!”

Who We Are

Allianz Consulting is part of Allianz Services, the Group’s global services platform specializing in core insurance operations and management consulting. We grow the leaders of tomorrow. Based in Munich, Paris, Milan, Barcelona, Trivandrum, Pune, Singapore and New York, our consultants strive to deliver exceptional performance across the whole value chain, transforming the future of Allianz from within.

Projects worldwide

Allianz Consulting is involved globally in the big strategic projects of the Allianz Group. In 2023 we supported over 500 projects in a broad variety of domains ranging from strategy, life and health insurance, investment management, marketing, sales, and distribution, IT and transformation, organization, claims and operations, to name but a few.

Your benefits at Allianz Consulting

Let's care for tomorrow. For shaping the future of Allianz.

GenAI @ Allianz

Description

As Artificial Intelligence (AI) continues to redefine business operations globally, its integration has become increasingly vital for companies seeking competitive advantage. Within the insurance sector, AI offers transformative potential, enabling enhanced efficiency, risk management, and customer experiences. This project focuses on exploring the application of Generative AI (GenAI) within the Allianz Germany. By identifying scalable GenAI use cases, the project aims to provide actionable insights for Allianz' strategic advancement in the evolving landscape of AI-driven innovation.

Goal

The goal of this project is to comprehensively analyze and evaluate the application of GenAI in the business environment of Allianz, as well as to develop specific recommendations for 3-5 use cases that are scalable across Allianz entities.

Scope

- Duration of 3 months, requiring a "Full-time" commitment of the students (TBD)
- Project group of 3-5 Master students
- Allianz Consulting will supervise the students by hosting regular discussion sessions with the project group.

Deliverables

- Project report or slide deck (TBD)
- 20-30 min final presentation in front of the TUM and Allianz Consulting supervisors

Your task

- Conduct market research and trend analysis
- Develop 3-5 application scenarios for Generative AI at Allianz
- Evaluate available technologies
- Perform risk and compliance assessment
- Establish key performance indicators (KPIs) for measuring success
- Present your findings in form of a presentation in the end of the project

Your Benefits

- Gain practical experience in AI applications
- Obtain insights into the insurance industry
- Provide direct feedback to a real-world company
- Extent your (business) network

Requirements

- Interest in AI and business strategy
- Strong research and analytical skills
- Excellent communication skills
- Proficiency in both German and English
