Clarifying Governance

What is it for and why do we do it?

You expect more from a role	→	**Add accountability**
You want to restrict access to an area	→	**Add a domain or policy**
There is ongoing work that fits no role	→	**Add a new role**
Work isn't needed anymore	→	**Remove role / accountability**
You want something to be prioritised over something else by default	→	**Capture it in a strategy**
