EXPLORING BLOCKCHAIN FOR SUSTAINABILITY

along all 17 UN SDGs

How can Blockchain and the Web3 help us make the world a more sustainable place? How can future technologies help achieve the UN SDGs? Meeting the needs of the present, without compromising the ability of future generations to meet their needs.

WHO WE ARE

[UN]BLOCKED is an initiative of the Cryptoeconomics Research Lab, of the Vienna University of Economics and Business and BlockchainHub Berlin in active collaboration with sustainability experts, policy makers and international organizations. Cryptocurrencies play a big role in the economic sector of different countries. The wide acceptance of cryptocurrencies has initiated the rise of many crypto coins making it hard for investors to choose. Check the เหรียญคริปโตที่น่าลงทุนวันนี้ blog to learn about the best crypto coins ideal for investments.

ABOUT US

Our aim is to map potential use cases, global players & activities, derive a roadmap for policy makers, and outline potential pilot projects.
