CONFERENCE

2 DAYS

Our aim is to bridge the multi-faceted knowledge gap between those who understand the technology, with those who understand sustainability issues, to those who regulate, and with those who create new solutions.

Sherrain Voshmgir (Director @ WU Institute for Cryptoeconomics)

Giulia Mercorelli (Finance and Monitoring Expert at UNIDO)

Jason Slater (Head of Financial Management at UNIDO)

moderated by Nikolaus Jilch @ Die Presse

THE EVENT WILL BE LIVESTREAMED

DAY 2

April 2nd 2019

The second day is invite only. Three to five pilot projects will be selected to engage in deep dive workshops to help develop the concept and identify potential bridges to further their cause. We are on the hunt for projects/products/initiatives/start-ups that uses or is interested in using blockchain technology to address one or more of the SDGs and are keen on extending their reach beyond the EU. Project themes may include (but are not limited to) impact entrepreneurship, supply chain transparency, behavioural change, tokenisation and governance.

Apart from pioneering entrepreneurs projects we are also looking for those interested in funding these projects or are eager to collaborate and help with the successful implementation. Selected pilots will be contacted by the first week of March.

12 DEVELOPERS **1** MENTOR **5** PROJECTS **2** DAYS

SPEAKERS

More speakers to be announced soon

EXHIBITORS & PROJECTS

A full day exhibition space at an inspiring location

Startups and other projects will have the opportunity to showcase their ideas in an open space next to the conference room). This open space is at the library building designed by the late famed architect Zaha Hadid, the flagship building where many students and researchers flow through. Conference visitors will have long breaks between the sessions providing ample time to interact with the Start-ups and projects. If you are interested, please pre-register on the link below.
