CALLS FOR ETHNIC CLEANSING, GENOCIDE & THE DEHUMANISATION OF PALESTINIANS

WHAT IS DEHUMANISATION & WHY DOES IT MATTER?

DEHUMANISATION IS A DENIAL OF HUMANITY

"It does not simply lower the position victims hold among fellow human beings but excludes them from the moral category of humanity altogether."

De Ruiter

"Those perceived as 'different' are treated with no form of human rights or personal dignity." It is part of the 10 stages of genocide.

Holocaust Memorial Trust

Waller in "Becoming Evil: How Ordinary People Commit Genocide & Mass Killing" states, there are three mechanisms central to understanding the social death of the victim in cases of mass killing and genocide:

- us-them thinking
- dehumanization of the victims
- blaming the victims

A detailed explanation of genocide in relation to Gaza can be found here: **Iyad El-Baghdadi**

For genocide to occur, **Mann** states that there need to be three elements:

- **A Radical Elite**

such as politicians & thought leaders

- **Militants** including soldiers & paramilitaries

- **Core Constituencies**

which provide tacit & explicit support

For this reason, potential data points for all three elements are provided in this list.

Numbered evidence is linked to source

Note: It is up to genocide researchers to determine what constitutes genocide. The data provided here exists solely for informational purposes and is aimed as a starting point for further informed discussion. It makes no assertions or conclusions.

4 | BRRubin, Twitter, Oct 28 2023

"You must remember what Amalek has done to you" – Israeli Prime Minister Benjamin Netanyahu states. This is not an idle reference to the Torah. The Amalekites are considered the quintessential enemy.

The final command by God regarding the Amalekites in the First Book of Samuel is: "Now go, attack the Amalekites, and totally destroy all that belongs to them. Do not spare them; put to death men and women, children and infants, cattle and sheep, camels, and donkeys". This appears to be an implicit call for genocide. It crops up several times in this list including again by Israeli Prime Minister Netanyahu.

5 | MacaesBruno, Twitter, Nov 2 2023

Anyone who wants to identify with Gaza is welcome. I will put him on buses heading there now." – Note that at the time this command was made, Gazans lack food, water, medicine, electricity, and are under constant bombing. A young Netanyahu lays out his plans to get "all the Arabs out". He also points out that non-white Jewish troops do "okay as long they're led by white officers." While this quote dates from before Benjamin Netanyahu became Prime Minister, it shows a deep-rooted and historical desire for ethnic cleansing alongside racism. The quotation is believed to be from 'Yoni: Hero of Entebbe 1979 by Max Hastings.

At Bibi Netanyahu's dinner table in Jerusalem, I listened with crawling dismay to Bibi talking about the future of his country. 'In the next war, if we do it right we'll have a chance to get all the Arabs out,' he said. 'We can clear the West Bank, sort out Jerusalem.' He joked about the Golani Brigade, the Israeli infantry force in which so many men were North African or Yemenite Jews. 'They're okay as long as they're led by white officers.' He grinned.

The embassy also takes seriously the threat of ethnic cleansing stating: "In Israel several people - including members of parliament, advisers and the military - do not dismiss this option as extreme, but as real". – While this article itself doesn't specifically reference those with command responsibility, it is clear that Dutch Embassy officials have spoken with those with such authority before releasing this memo.

Militants

Militants in Mann's phraseology are those who carry out dehumanising, genocidal or ethnic cleansing actions.
As such this following list consists of a large number of both statements and actions. The focus is not on regular acts of war, but of statements and actions that represent intent beyond regular warfare. These statements and actions would not be tolerated in modern militaries adhering to the rule of law and as such represent extremities in dehumanisation, genocidal intent and ethnic cleansing.
There are some extreme cases in this list. Some cannot be verified due to Gaza being an active war zone. Yet others have video evidence.
Members on this list especially include IDF soldiers and police.

Core Constituencies

In Mann's phraseology, core constituencies create an atmosphere that provides both tacit and explicit support for dehumanisation, genocidal intent, and ethnic cleansing. This can be through normalising such language and opinions. It will also include popularising and the sharing of hateful thoughts and in the modern era, memes and figures of speech.
It is vital that genocidal intent is not merely understood as a top-down phenomenon. If that were the case, there would be no popular support or impetus for it. Rather the three groups interact with one another in complex ways and can erupt into extremes in the right circumstances. In this list, examples which indicate a febrile atmosphere that could be conducive to ethnic cleansing, genocidal intent, and dehumanisation are provided.
